Summary:

Giorgia Milne embodies a personal and professional evolution from allopathic skill to the healing energy work of all the major craniosacral and related approaches, culminating in having founded her own school: Touch of Presence® School for Biodynamic Studies. Here she honors her originating transmission impulse which has evolved to integrate all her offerings in Biodynamic Cranial Approach (BCA). She is a graduate of the Stanford University Physician Assistant Program and former Primary Care Provider. She travels extensively offering BCA Introduction and Intensive Courses, along with numerous other course topics underlying biodynamic principles inherent to the perspective of BCA. Her teaching style rests in her vast personal and professional embodied experience resulting in the ability to sense and teach directly from the dynamic alchemy of the present moment – the perspective of Oral Tradition.
